

Love your  
lungs  
love the  
planet!

**Did you know?**

**You can try a greener inhaler.**

**Some are over 20 times better for the planet than other kinds of inhaler.**

It's unlikely that switching inhalers will make your condition worse and you can switch back at any time if it doesn't feel right for you.

**Ask about trying a new inhaler at your next review.**

**HELP**

Create a world  
— where we can  
— all breathe  
— a little —  
easier

**Did you know?**

Many people are trying and switching to more environmentally friendly inhalers.

They are easier to use and many have dose-counters so you can monitor how much is left.

Ask about trying a new inhaler at your next review.
